

A Special Invitation for Private Adoptive Parents of Youth Currently Age 10-13

The workshops will be conducted one night a week for seven consecutive weeks from 6:30-8:30pm in your area.

Expect more information in the coming weeks including how to register for this free workshop.

Participants will receive:

- Three \$50 gift cards to assist with the cost of transportation and childcare
- A copy of the book *Raising an Emotionally Intelligent Child*
- Dinner at each session
- Registration for the annual Concerned Persons for Adoption Conference

Internationally Recognized

TUNING IN TO TEENS

What is Tuning in to Teens?

Tuning in to Teens is a parenting program designed to help parents improve relationships and connect with their teens. Because teenage years can be tough, TINT is designed to help parents:

- understand how teens think and feel
- learn ways to manage your teens emotions and your own
- respond to teens in ways that will help them talk more to you
- create a calmer home environment and lower conflict

This is a research study conducted by QIC-AG. Although we expect TINT to be effective, it has never been tested with adoptive families. We hope to learn of its effectiveness through this study.

Wednesday Nights (October 4, 11, 18, 25, November 1, 8, 15)

Paterson- Impact Paterson (office building) 100 Hamilton Plaza Suite 101
